Things to do before turning in:

- review all comments
- test more random cases
- upload pictures of work
- check last program comments
- reread all project requirements
- check code style
- check miscellaneous notes on computer
- check that github actions output file is the ~~not~~ same as the expected output
- recheck all codes logic
- recheck comments
- recheck program requirements
- even more tests
- check variable names
- check notes from notebook
- check tests
