

turn to next page

8, 1, 5, 6, 7 I have a string w/ all page

numbers showing the answer.

1567

new number even yet.

15679

how do we type bridge.

Next
steps
and display

Hello: 5, 6, 10, 11

44, 55

wrap at 69

each time you add

add num chars

to line length

before adding anything

check to see if it will

go over 69 chars

if yes then new

remove old line deb.

add new stuff at deb.

set deb.
